## COMPLETE CONTROLS

### PC CONTROL INFORMATION

*FIFA 14* on PC allows you to play the game on a variety of control devices. For the best experience, we recommend using the Logitech® F510 controller. The controls listed throughout the manual assume that you are using a Logitech F510 controller. Please consult the readme file for the full list of gamepads that are supported. Also note that in the FIFA launcher, if you select GAME SETTINGS > BUTTON ICONS, you can toggle between numeric and the X, Y, A, B style of icons. If you are a keyboard or keyboard and mouse player, *FIFA 14* on PC also allows you to see keyboard icons/keys in-game. This is defined when you launch the game and reach the screen that says, "Press START or SPACE". This defines your default control device. If you have a gamepad and press  at this point, you will see the button icons that you've selected in the previously mentioned FIFA Launcher. If you press **SPACEBAR** on this screen, you will see keyboard icons represented throughout.

When editing control mappings in-game, note that whatever device you advance with to enter the Controller Settings screens is the device that the game allows you to adjust your control mappings for. For example, you may have set your default device as a gamepad but if you press **ENTER** to go into Controller Settings, you will see screens related to keyboard and mouse control settings. You can also toggle between Keyboard + Mouse and Keyboard Only as your control device on the Controller Settings screen.

# KEYBOARD + MOUSE CONTROLS

In *FIFA 14*, you can choose to use keyboard and mouse to play the game. This design allows for keyboard players to experience features in the game such as skill moves, pointing to open space for through balls, creating run paths for teammates, and man marking on defense.

**NOTE:** These are the default Classic Controls. Alternate and two-button are also available. You can customize key mappings to Actions by selecting the key you want to adjust and pressing **RETURN**. However, the following keyboard and mouse buttons are hard-coded and cannot be changed: left-click, right-click, scroll wheel, mouse, and **R**.

### ASSISTANCE FOR NEW PLAYERS

You don't have to be a pro to make impressive moves when you're out on the pitch. If you're new to *FIFA 14*, go to Controls under the Settings option to turn on Assistance for specific moves. This makes passes and saves easier, without the need for perfect timing or positioning. When you're ready for more of a challenge, choose SEMI for less assistance or MANUAL to earn every one of your goals without aid.

# SKILL MOVES

## FIFA ULTIMATE TEAM

Create your own Ultimate Team, fine-tune it to perfect Team Chemistry, and try to reach the top of the FIFA Ultimate Team (FUT) leaderboards. Choose players to build Squads with high Chemistry, buy or sell items on the 24/7 live Transfer Market, and play in a variety of both single player and online game modes.

## GETTING STARTED

When you first start Ultimate Team, you'll learn how to swap and link players to improve Team Chemistry before playing a starter match. From there, you can start your own Squad and explore the Transfer Market, Pack Store, and your Club.

## CHEMISTRY

Chemistry is at the core of what makes your Ultimate Team successful. Having a team of star players can help you shine on the pitch, but your Squad must also have the right Chemistry to allow you to maximize its performance. The higher your Chemistry, the better your team performs during matches—and that means a better chance at winning games.

Your team's Chemistry Rating appears in the upper right corner when viewing your Active Squad. Placing players in their preferred positions can improve Chemistry. You should also encourage Nationality, League, and Club Chemistry by linking players so the connections between them are green—indicating a strong link.

Swap your players around on the Active Squad screen and add new ones from your Club or the Transfer Market to find the ideal balance for your team!

## CHEMISTRY STYLES

Every player in Ultimate Team has a Chemistry Style. This affects which attributes will be improved based on the player's Chemistry Rating. Arrows appear beside the attributes that a specific Chemistry Style affects, and as you start building up Chemistry, they will turn from white to green.

To get the most out of your Squad, you can apply new Styles to them to change their attributes and, in turn, the team's overall tactics. The effects remain on a player until a new Style is applied. You can find these Styles in Packs and on the Transfer Market.

## CONTRACTS

Before players can excel out on the pitch, they need contracts to play matches. When viewing your Active Squad, highlight a player and press **X** to access the Actions menu, and then select **APPLY CONSUMABLE** to apply a Contract to a player. Move **R3** to switch to the status view, which shows the amount of remaining contracts for every player.

To give you a head start, the Players from your Starter Pack will come with a special long-term Contract (45 matches). All Players found in Packs start with seven Contracts, and each match they play reduces the number of Contracts by one. If a player is in your subs or reserves but doesn't head onto the pitch at all, he does not lose a Contract for that match.

## **MATCHES, TOURNAMENT, AND SEASONS**

Challenge your team and reap the rewards in Matches, Tournaments, and Seasons.

Tournament matches are always single-round knockout matches, and can be played online or as single player games. Win matches to earn Coins, or take your team to the top and win a Tournament to gain Trophies, Coins, and sometimes even Packs.

Seasons consist of 10 games, playable Online or in Single Player mode. Try to make it through and win the Season or gain promotion! In this mode, the promotion, hold, and relegation system means that losing a match doesn't eliminate your team from the season, giving you the opportunity to bounce back from defeats.

## **TRANSFER MARKET**

The Transfer Market is the hub for purchasing, listing, and selling items. Here, you can find new Players to increase your Squad's overall rating and Chemistry Rating. If you're looking for a new Player, use the search filters such as Quality, Position, Chemistry Style, and Pricing to quickly find the ideal footballer to complement your Active Squad.

### **SEARCH BY NAME**

If you want to search for a specific Player to fill out your Squad, use the first option in Player Search to type in his first or last name. This lets you easily select the Player you want based on the search results that appear.

### **SEARCH FROM SQUAD**

For the first time in the Transfer Market, you can search for a Player directly from your Active Squad, compare him to other Players, and submit a Transfer Bid for him if desired. Simply highlight the Player on your Active Squad screen, press **X** to bring up the Actions menu, select **SWAP PLAYER** and then **SEARCH TRANSFER MARKET**.

## **PACK STORE**

Purchase Packs from the store to find new Players for your Squad. You'll also sometimes earn Packs from winning Tournaments or as a special reward at the end of a Season.

## **MY CLUB**

As you gain new players through the Transfer Market and from Packs you have purchased or won, you will have more than enough Players for one Squad. My Club contains all of the players not in your current Squad, as well as your Consumables and other Items.

## LEADERBOARDS

Check out the leaderboards to compare yourself to your friends or the top 100 FUT users across the globe as you build your Ultimate Team, play Tournaments and Seasons, and grow your Club.

## CAREER

Career mode is an immersive experience that offers you the chance to play through a lifelong football career. Career mode is split into two different areas, Player and Manager. Start as a player and play through both, or start later as a manager.

### PLAYER CAREER

Create your own player, or take control of a single professional footballer as you play in multiple leagues, cups, and continental competitions to boost your form rating and ultimately represent your national team.

### MANAGER CAREER

Take control of the financial side of your favorite club and please the Board. Scout for new players, manage the budget, and make key player and squad decisions as you take your club to the top.

### GLOBAL TRANSFER NETWORK

One of your jobs as manager is to scout for new players, and *FIFA 14*'s new Global Transfer Network makes this more rewarding than ever. Send scouts to different countries to scout the respective leagues, and set Scouting Instructions to find players who fit your criteria. You can also search the names of specific players you want. Once you've found possible recruits, assign a scout to watch them and make the best decision for your team.

## SEASONS

Enjoy ranked online play at its best and most competitive with Seasons. As you play through 10 games per season, try to earn enough points to avoid relegation and gain promotion to the next division—or even win the division title. It won't be easy! Higher divisions mean tougher competition and promotions, so get ready for a true football challenge.

### CO-OP SEASONS

For the first time, dominate the pitch with a friend as you play through Seasons mode on the same team. Co-op Seasons is the next evolution in online play, allowing you and a friend to team up online and play 2v2. Take up the challenge of reaching Division 1 and fill up your trophy cabinet!

## PRO CLUBS

Join or create a Pro Club to play alongside friends and other *FIFA 14* gamers in up to 11v11 online play.

With your club, you can compete in 10 games per season and try to gain promotion through the league divisions. Create and grow your online Pro by competing in Club or Drop-In matches, and earn accomplishments to unlock better attributes, unique traits, gameplay celebrations, and kit upgrades. Teamwork is key if you're going to score goals, win matches, and create the best Pro player possible.

## ONLINE FRIENDLIES

Invite a friend to play a match online, and track your rivalry to prove who has the most skills on the pitch in five game seasons. Earn the most points in five games to hoist the trophy, and then keep the competition going with the next season as you try to defend your title!

## SKILL GAMES

Improve your football skills by completing challenges that test specific maneuvers such as chip shots, free kicks, and dribbling. As you master these abilities, you unlock Skill Challenges to become Legendary at each proficiency. Compare yourself to friends and others on the leaderboards for extra motivation as you progress through the levels!

## TOURNAMENT

Play an official league or tournament, or create a tournament and play matches to see who wins your fictional cup. Choose how many teams will participate and set the rules and fixtures to fine-tune the events.

Once you get started, you can play matches or simulate them. A screen with a calendar, team statistics, match results, records, and tournament brackets keeps you up to date as teams compete in hopes of becoming the tournament victors.

## BE A PRO

Play to win and bring the crowd to its feet in Be A Pro mode. You can take control of a specific player or goalkeeper on the field and follow all the action with the player-focused 3rd Person Cam. Select BE A PRO PLAYER or BE A PRO GOALKEEPER from the +More tile in the Play screen to get started.

**NOTE:** The 3rd Person Cam is only available when playing as a single player in Be A Pro modes. When playing with your friends, the normal Be A Pro camera is used.

## BE A PRO PLAYER CONTROLS

If you're going to play as a pro, you've got to think like one. When your team is on the attack, time your runs and call for the ball at the right time. When defending, ensure you cover any dangers posed by your opponents. Teamwork is everything in football, and communication with your teammates is the key to success. Wherever you are on the field, make sure you use the following controls to increase your chances of victory.

<b>Call for pass/Cross</b>	<b>A</b>
<b>Call for or suggest through ball</b>	<b>Y</b>
<b>Suggest shot</b>	<b>B</b>

## INDICATORS

Be A Pro Player provides many of the same challenges faced by real players. Use the indicators provided to ensure you're in the best position on the pitch.

### POSITIONING

Knowing where to be on the pitch at any given moment is a must, whatever position you've adopted. In order to improve your positional sense, use the arrows as a guide. Follow them until they disappear to make sure you're in the right place at the right time.

### OFFSIDE

To ensure the assistant referee doesn't bring a swift end to another attacking move, make sure you keep an eye out for his flag. When you stray offside, a flag icon appears. To avoid being pulled up and losing valuable XP, run back past the last defender to get into an onside position.

### MARKING

Goals are often scored when opposing players are left unmarked, and it is your responsibility to make sure that doesn't happen. A red ring appears underneath any player with open room that you should be marking. Close in on them as soon as possible!

## BE A PRO GOALKEEPER CONTROLS

Goalkeeper is one of the most important positions on the pitch. In Be A Pro Goalkeeper, you take control of the goalie and must keep your team's net secure! Maintain good positioning in front of the net, make saving shots, cut off crosses, and distribute the ball to your teammates after saves. Stay alert! You cannot afford to fail.

**NOTE:** There are two camera modes in Be A Pro Goalkeeper. One allows you to follow the ball as the action takes place on the pitch. The other allows you to focus on the goalkeeper and prepare for oncoming attacks. Press  to switch between them in order to maintain appropriate positioning on the pitch.
